

How to update your Transflo App-

Open your Transflo App and go to your "Profile/Settings" tab

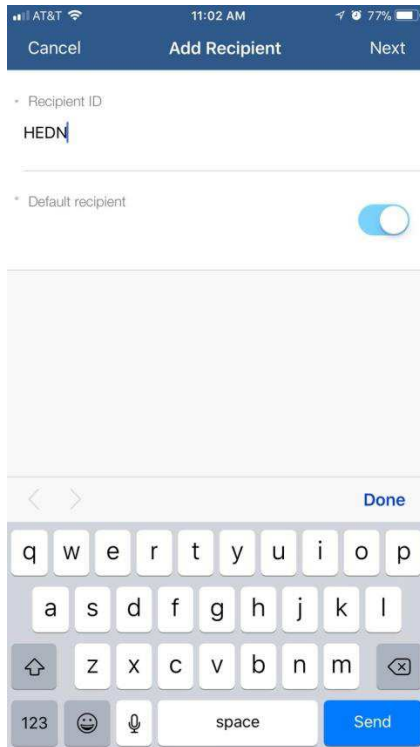

Go to Recipients

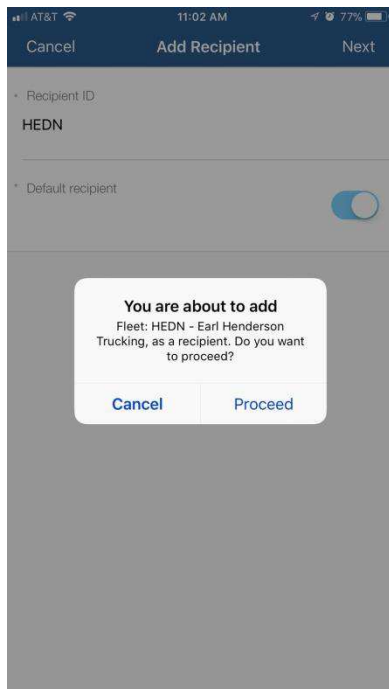

Click "+ Add New Recipient" Located at the BOTTOM of the Screen

Type new Recipient ID (HEDN) and save as Default

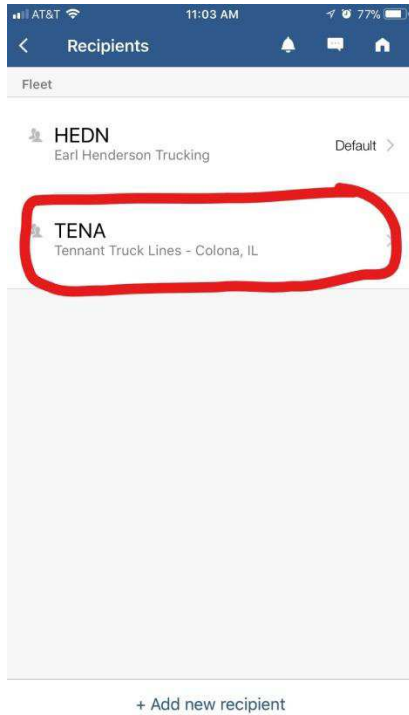

You will get a pop up telling you that you are adding Earl L Henderson select "Proceed"

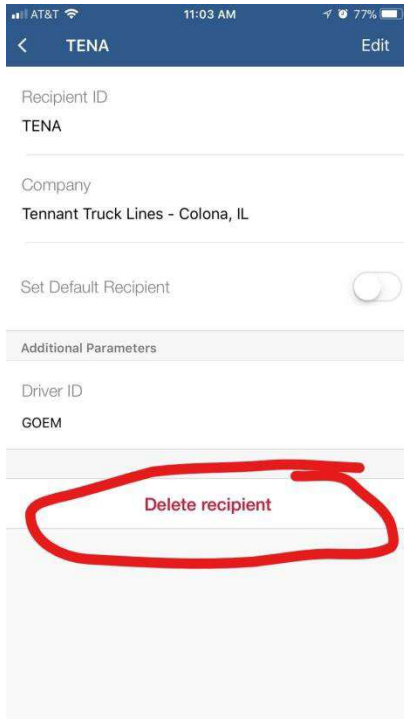

Then it will ask you for your Driver ID- this is your driver code in CAPS

Then you will Choose "Submit Registration"

Go back into your "Profile/Settings" tab and the choose Recipients and choose the TENA old recipient code

Please Delete the old ID, this option is located at the bottom of the screen

When you are finished your home screen should look the same as below
